COURSE

**My evolution from
conventional mechanics to
the Damon System**

Place:

POLIKLINIKA BAGATIN

Zagreb, Green Gold Tower,
Ulica grada Vukovara 269 G, tower V2, 2nd floor

Date: **5th October 2018**

“My evolution from conventional mechanics to the Damon System”

In June 2001, I saw Dr Damon for the first time, without really being aware of what that would mean for me. Seventeen years later, I am still amazed by what the Damon System is capable of doing for our patients.

In this course, we will provide an update on how we work with the Damon System from day to day, focusing our attention on a series of details that will allow us to obtain perfect finishes and spectacular results at both the dental and facial levels.

Programme:

- My evolution from conventional mechanics to the Damon System.
- Why I changed. Giving priority to the patient's FACE and smile.
- The 3 pillars of the Damon System:
 - Passive self-ligating brackets.
 - High technology archwires.
 - Simplified treatment protocol.
- The 4 phases of the treatment.
- Differential torques. When and why. Indications.
- Archwire sequence.
- Dental Crowding. D-Gainer.
- Extractions. When and why. Paradigm shift.
- Transversal problems. Posterior crossbite.
- Sagittal problems:
 - Class II.
 - Class III.
 - Potential of the elastics.
 - Camouflaging surgical cases.
- Vertical problems:
 - Deep bite.
 - Open bite.
- Agenesis and tooth loss:
 - Opening of spaces for prostheses
- “Class IV” malocclusions.

Place:

POLIKLINIKA BAGATIN

Zagreb, Green Gold Tower,
Ulica grada Vukovara 269 G,
tower V2, 2nd floor

Date: 5. 10. 2018.
