Dr. Domingo Martin

Dr. Martín graduated in Biology from the University of Southern California (1970-1974), in Medicine from the University of Basque Country (1975-1982), in Dentistry from the same University (1982-1984) and as an Orthodontist from the University of Valencia (1984-1987). Having completed his orthodontic studies, he took a two-year post-graduate course, obtaining the Orthodontics and Functional Occlusion Diploma from the Roth-Williams Foundation in San Francisco, California (1987-1989). He is also a member of the Angle Society of Europe. He has been running a private orthodontic practice in San Sebastián ever since.

Dr. Renato Cocconi

Dr. Cocconi attended the 3 years postgraduate program at the Department of Orthodontics of the University of Milan where he obtained his Master degree in 1993. He spent 2 and 1/2 years in the United States where he worked in L.F. Andrews' office in San Diego and attended the 2 years Roth Williams postgraduate course in Burlingame (CA) in 1991-1993. He has cooperated with Terry Tanaka at the USC facial pain. He is currently clinical professor at the Department of Orthodontics of the University of Milan and his private practice is in Parma where he lives. He is responsible of the Roth Williams group in Italy and has given lectures at the main European and American Orthodontic Societies. He is a member of the EOS, AAO, SIDO and an active member of the Angle Society of Europe.

Dr. Marc Geserick

Dr. Geserick finished dental school in 2000 followed by clinical traineeships at the university of Oklahoma, USA, the university of Peradeniya, Sri Lanka and the Tsurumi University in Japan. He did his postgraduate studies in Basel and Los Angeles. Dr. Geserick owns a private practice in Ulm, Germany. He is the author of several articles and has given lectures

internationally.

Dr. Stefano Troiani

Dr. Troiani earned his degree in Dentistry at University "La Sapienza" in Rome. He received his diploma of specialist in orthodontics at the Royal Dental College, Århus, Denmark. The Master of Science with the Thesis "Influence of incisors proclination on the development of gingival recessions" was earned at the Royal Dental College, Århus, Denmark. Dr. Troiani trained for 2 years at the Roth-Williams postgraduate Course in Italy with Dr. Cocconi. Dr. Troiani owns a dental private practice in Rome and has lectured at several international courses.
